

MISSION OF SUFFOLK COUNTY COMMUNITY COLLEGE'S LIBRARIES

The Suffolk County Community College libraries advance the mission of the College by teaching information literacy, providing access to academic collections, promoting student success and encouraging life-long learning. The libraries provide easy access to diverse print, electronic and media resources. The libraries foster an educational environment enabling all members of the college community to analyze information needs, locate, evaluate and effectively use information resources. The libraries promote intellectual freedom, the ethical use of information and academic integrity.
